	2 B	" 15 tons	Weimar	[Redacted] 3	

25X1

1. [Redacted]

2. [Redacted] **Comment.** The shipments probably consisted of materiel in need of repair which was returned to the USSR. 25X1

3. [Redacted] **Comment.** The report confirms the ammunition depot and the ordnance depot of the Eighth Gds Army at Altenhain until late May 1954. While 61 cars with ammunition and 56 cars with equipment were dispatched from the depots in April, outgoing shipments numbered 56 cars with ammunition and 33 cars with weapons and equipment in May 1954. The ammunition was consigned to units of the Eighth Gds Army and represents the normal monthly expenditure of ammunition. In May 1954, 29 of 33 cars with military goods were dispatched to the USSR which is a considerable decrease in the delivery of equipment to units in the GDR. The supply of the troops with replacement equipment was probably completed after termination of winter training in April 1954. The shipment to Jueterbog-Altes Lager on 20 May 1954 probably was consigned to the GQFG ordnance depot. 25X1
